Museum of Architecture and Design

The Wavelength collection consists of various undulating repeated upholstered forms from lounge chair to benches, to various size sofas. A wide variety of upholstery options make the Wavelength suitable for applications such as retail, residential, hospitality, public spaces and corporate offices.

Frame and arms:

Polished or brushed aluminum castings.

Table:

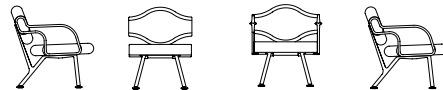

Polished or brushed aluminum castings. Table with arm is only available on 2-seat and 3-seat option.

Seat and Back:

Cut polyurethane foam and laminated wood construction, upholstered in fabric, leather or vinyl.
