

VOX® FlipTop is a movable and storable table that can reconfigure a boardroom into a conference, meeting or hospitality setting. While mobile tables often clash with the existing furniture in corporate spaces, the substantial and permanent look of Vox® FlipTop complements the boardroom aesthetic. The versatile Vox® FlipTop table minimizes the impact of rising real estate costs.

Vox® FlipTop tables nest for compact storage. Top surfaces are protected from damage by inconspicuous soft rubber bumpers in the front of the legs.

When the Vox® FlipTop table is not in use, the top unlocks from the base and swivels up into its storage position. Pneumatic cylinders act as a counterweight, enabling the top to move with fingertip ease. Discreet double-wheel casters provide a simple method of moving these tables where they need to go.

Tops are available with Nienkämper's full range of wood veneer and wood-veneer laminates.

Visit the Nienkämper Web site at www.nienkamper.com for more information on the Vox® FlipTop table.

Vox® FlipTop tables can be specified with modesty panels. Available materials include veneer to match the top, laminate with translucent edging to match the top, or anodized-aluminum.

A unique flexible hinge joins the modesty panel to the tabletop. When the top is flipped up, the panel aligns with the top and swivels out of the way.
