Vox®  
Design: Mark Müller

**Base:**

Vox® bases are available in three shapes: Duo, Tri, and Quad. Vox® bases are designed to meet wire management needs and accommodate standard floor monuments. Bases are available in standard Nienkämper wood veneers and stains. Fluted aluminum endpieces are available in clear, champagne, light bronze, bronze and black.

**Tops:**

1 1/4" thick wood veneer top with facet edge is available in standard Nienkämper wood veneers and stains. A forming grade plastic laminate with solid wood facet edge is also available.

**Special Features:**

Vox® Forum provides convenient tabletop access to voice/data/power, audio, LAN and video – pre-wired and ready to go. Forum finishes are available to match fluted aluminum endpieces on the Vox® table bases.

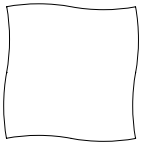

Vox® tables are designed to meet changing demands for multi-functional conference and boardroom applications. For complete information on Vox® tables refer to the Vox® Price List.

Refer to the office seating section of the Nienkämper catalogue for details on the Senator chair.
