Sedan

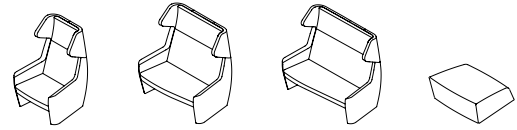

Design: Aaron Duke and Evan Bare

Sedan creates a strong presence in any space. With its elegant clean line styling for a distinctively modern look it is especially suitable collaborative spaces, lobbies, and lounges. Sedan is incredibly comfortable thanks to its higher back height and multi-density layer foam. It has a generous deep cushioned seat and backrest that boasts additional lumbar support. A classic modern wingback with tailored detailing, impressive first class comfort and the ultimate in privacy. Sedan is by definition the very definition of modern simplicity.
