Reception Desk
Design: Nienkämper

A reception area occupies only a small percentage of an office's floor space, but its opinion-shaping impact is huge. The beautiful wood veneers, elegantly simple lines and impeccable craftsmanship of

reception desks from Nienkämper subtly convey professionalism and stability. At Nienkämper, we believe in design that makes a great first impression. And we believe in design that lasts.

Straight-front reception desk in quarter-cut, book-matched natural figured sycamore veneer with gallery surround glass transaction top

Reception Desks Design: Nienkämper

Nienkämper provides impressive and efficient reception area solutions, with an extended array of options and finishes that are in keeping with the highly visible and image-shaping nature of the reception area.

Work Surfaces:

Tops are 1 1/4" thick, available in wood veneer or plastic laminate with a solid wood Facet™ edge. The model shown incorporates the use of plastic laminate work surfaces which can be specified to house a recessed monitor (as shown in drawing) and grommet. A CPU unit can be concealed underneath the work surface using a sliding support.

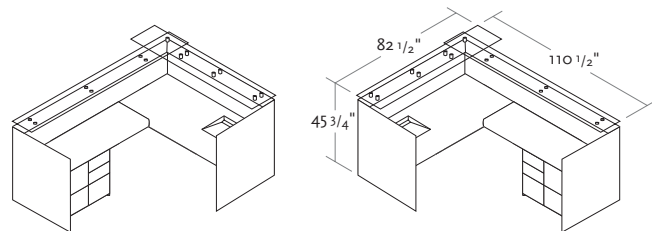

Cases and Pedestal Fronts:

Available in standard Nienkämper wood veneers and stains or Granite finishes.

Refer to the Parabola® Price List for complete information on The Parabola® Collection.
