Satori/Satori with Tablet Arm
 Design: Mark Saffell and David Ritch

nienkämper

The Satori chair with tablet arm offers a space efficient design and comfort for all users. It is best used in lounge and conference spaces where informal meetings take place. The tablet arm provides an area for a laptop or note taking, encouraging interaction among users.

23202 Satori with tablet arm
 sh 17¹/₄" ah 24³/₄" w 30³/₄" d 24¹/₄" h 30¹/₂"

Frame:
 Hardwood construction, webbed suspension.

Mounts and Tablet:
 Mounts are polished cast aluminum. Tablet is a lightweight textured marine grade plastic made with recycled polymers.

Seat, Back and Arm:
 Cut polyurethane foam and soft fortrel. Upholstered in leather or fabric.

Base:
 The base has polished cast aluminum legs in the back and casters in the front. A handle on the back of the chair makes it easy to reconfigure meeting spaces.

The cup holder and tablet arm are easily interchangeable for right- and left-handed users. The black mesh pocket is on the right side of the chair.
